-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a spa having a shell and frame, classified in class 4, subclass 541.1.
- II. Claims 11-22, drawn to spa shell, classified in class 4, subclass 506III.
- III. Claims 23-26, drawn to a method of fabricating a spa shell, classified in class 264, subclass unknown.
- IV. Claims 27-45, drawn to spa kit, classified in class 4, subclass 661.
- V. Claim 46 drawn to a method of assembling a spa, classified in class 4, subclass 661

The inventions are distinct, each from the other because:

Inventions I and II, IV are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the metal and polymeric extrusions are not required by the combination, nor is the polymeric sheet. The subcombination has separate utility such as a portion of any pool construction and without the sheet construction.

Inventions I, II, IV and III, V are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2)

Art Unit: 3751

that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the former can be made without moulding a polymeric layer around the support member and without use of a sheet.

Due to the extensive nature of this requirement no telephone contact was attempted.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Charles E. Phillips at telephone number 571-272-4893.
